

# First Detector Training Workshop & Field Pest Identification Workshop

NMSU Cooperative Extension Service is offering a First Detector Training Workshop for Master Gardeners, Pest Control Operators, landscape managers, crop producers and the general public. This training is part of the National Plant Diagnostic Network's education and training program. Participants who attend the training workshop will become "Certified First Detectors" and be part of a national registry of trained first detectors.

## Registration Form

I plan to attend:

Day 1—First Detector Training  
(\$20.00 includes lunch)

Day 2—Field Pest ID Workshop (free)
