

**Sandoval Extension Master Gardeners present:
Gardening with the Masters**

Gardening For Year-Round Color

Presented by: Kate Shadock SEMG 2018

Brown is the most common color we see in Sandoval County from Mid-October to Mid-March. Some of us prefer a broader color

palette, especially though the winter months. Plants, construction choices, and artistic expression, make it possible to have more color in the garden year-round.

Join us for an evening of ***Gardening With The Masters*** to get ideas on how to extend the color in your garden with plants, hard scape, paint, and accessories.

WHERE: Meadowlark Senior Center

4330 Meadowlark Ln SE, Rio Rancho, NM 87124

TIME: 7:00 – 8:30 pm

DATE: Tuesday January 24, 2023
